SUMMARY

Associate Software Engineer with hands-on experience in full-stack web, System and mobile application development. Completed a Full Stack Software Engineer Internship at NAITA Head Office, gaining practical exposure to real-world software engineering practices.

Strong backend expertise in Django (Python), Nodejs, Express.js, RESTful API development, and database design using PostgreSQL, SQLite, SQL, and Firebase. Proficient in frontend development with React and Tailwind CSS, along with mobile application development using Flutter.

Passionate about building scalable, maintainable software solutions and contributing effectively within agile development teams.

PROFESSIONAL EXPERIENCE

Full Stack Software Engineer Intern, NAITA - Head Office, Sri Lanka

09/2025 – 03/2026

Sri Lanka

- Developed and maintained RESTful APIs with Django and Python, including authentication and role-based access control.
- Designed and managed PostgreSQL and SQLite databases with schema design and data validation.
- Integrated backend services with React + Tailwind CSS frontend, building reusable UI components.
- Delivered end-to-end full-stack modules, including API development, frontend integration, testing, and optimization.

EDUCATION

Higher National Diploma in Information Technology, Sliate(ATI Dehiwala)

2023 – Present

Dehiwala, Sri Lanka

GCE Advanced Level (A/L), Kal/ Nirmala Matha Sinhala National Collage

2022 – 2022

Kalpitiya, Sri Lanka

Diploma in English & IT, Esoft Metro Campus

2019 – 2019

Chilaw, Sri Lanka

SKILLS

Mobile Development

Flutter, React Native

Programming Languages

Python, JavaScript, Dart, Java, C#, SQL

Soft Skills

Teamwork, Communication, Problem-solving,
Time Management

Web Development

React, Next.js, Tailwind CSS, HTML5, CSS3, Django

Backend & Databases

Django, Express.js, Firebase, MySQL, SQL Server,
SQLite, PostgreSQL

Tools & Platforms

Git, GitHub, VS Code, Figma, Expo

PROJECTS & EXPERIENCE

IETI Website - Full-Stack

- Developed full-stack web application with responsive frontend, backend APIs, and relational database integration.
- Implemented role-based authentication, dynamic content management, and optimized system performance

Service Desk System - Full-Stack

- Developed backend with 8 RESTful APIs and database integration, plus selected frontend components.
- Delivered end-to-end modules ensuring reliable performance, error handling, and smooth data flow.

Sparkler E-commerce Website - Full-Stack

- Developed full-stack e-commerce platform with frontend, backend, database, payment gateway, and email server integration.
- Built secure, performant system for product management, orders, and notifications.

AETI Website - Full-Stack

- Redesigned full-stack website, developing frontend and backend with 10 RESTful APIs.
- Improved system maintainability, responsiveness, and overall performance.

INHT Website - Frontend

- Built responsive, user-friendly frontend interface with reusable UI components.
- Integrated frontend with backend APIs and improved overall UI/UX and performance.
